

The Dystonia Medical Research Foundation invites you to join us as a sponsor of The Inaugural Rochester Dystonia Zoo Day!

This event is a wonderful opportunity for you to demonstrate your leadership in helping to bring awareness to a cause that is often overlooked.

What is Dystonia?

Dystonia is a brain disorder that causes extreme muscle spasms so intense they produce involuntary movements and postures of the body and limbs. Gait, balance, speech, and vision may be impaired due to the twisting, painful contortions. Put quite simply, people with dystonia cannot control the movement of their own bodies. The disorder affects people of all ages and backgrounds.

What Are Dystonia Zoo Days?

Dystonia Zoo Days are a national series of family-friendly community events that promote awareness of dystonia, connect the dystonia community, and support the work of the DMRF. These are not traditional walks, as many with dystonia are unable to walk, but are empowering events that engage individuals and families impacted by dystonia, their friends and colleagues, and the local professional community.

How Your Support Helps

Sponsors reach family and professional audiences in the greater Rochester area while partnering with the DMRF to inform the public about dystonia leading to more accurate diagnosis and offer a better path to treatment and improved patient quality of life for those struggling with dystonia.

October 25, 2025 @ The Seneca Park Zoo

The Rochester Dystonia Zoo Day is organized by the team at the University of Rochester Neurology – Movement Disorders Center and families affected with various forms of dystonia from childhood to adult onset. Working together, they are hoping to spread awareness, educate the public, and generate donations for the DMRF. Special guests, including medical experts and members of the dystonia community will share their stories and talk about the need for improving diagnosis rates and investing in research. Learn more at <https://rochesterdystoniazooday.swell.gives/>.
